INSTRUCTIONS

INTRODUCTION:

It would be incredibly naive of us to doubt the entrepreneurial drive of our readership. No doubt most of you have fantastic genius-ideas in the developmental stages. And no doubt, many of those genius-ideas will be brought to market as consumer products that, more than likely, will require some sort of mascot to introduce them to potential consumers.

Not being the types to oppose, or even ignore the possible efforts of our readership, we here at Somethingspace have taken it upon ourselves, once again, to help. This time, we've decided to ease the development of your consumer products by helping you select a mascot. We've compiled a short list of some excellent mascots that happen to be out of work at the moment.

Some of them are more experienced than others, but all of them are interesting, exciting and eager to be a part of your team! So have a look through our Product Mascot Resumes, and see if there's anyone you think you might want to work with.

ENJOY!
