**CUT N' PASTE
PLAYSET:
DOWNTOWN
STRIP
CLUB**

INSTRUCTIONS

INTRODUCTION:

The downtown strip club has always symbolized imagination and opportunity. It's the place where a small town girl can come to make her way in the big city. It's also a place where a city boy can come to pay a woman to grind her ass around in his lap. With this playset, you can act out your own sultry stage performances, lewd lapdances and back-alley blow jobs. To use this playset, you will require scissors, glue and a desire to have fun!

SCENERY:

Place page 2, the floor plan, face up on a flat surface. Cut out the furniture on page 3, including the grey shaded area. Fold along the thick black lines. Apply glue to the flaps, assemble the stage and tables and attach the furniture to the floor in the marked areas.

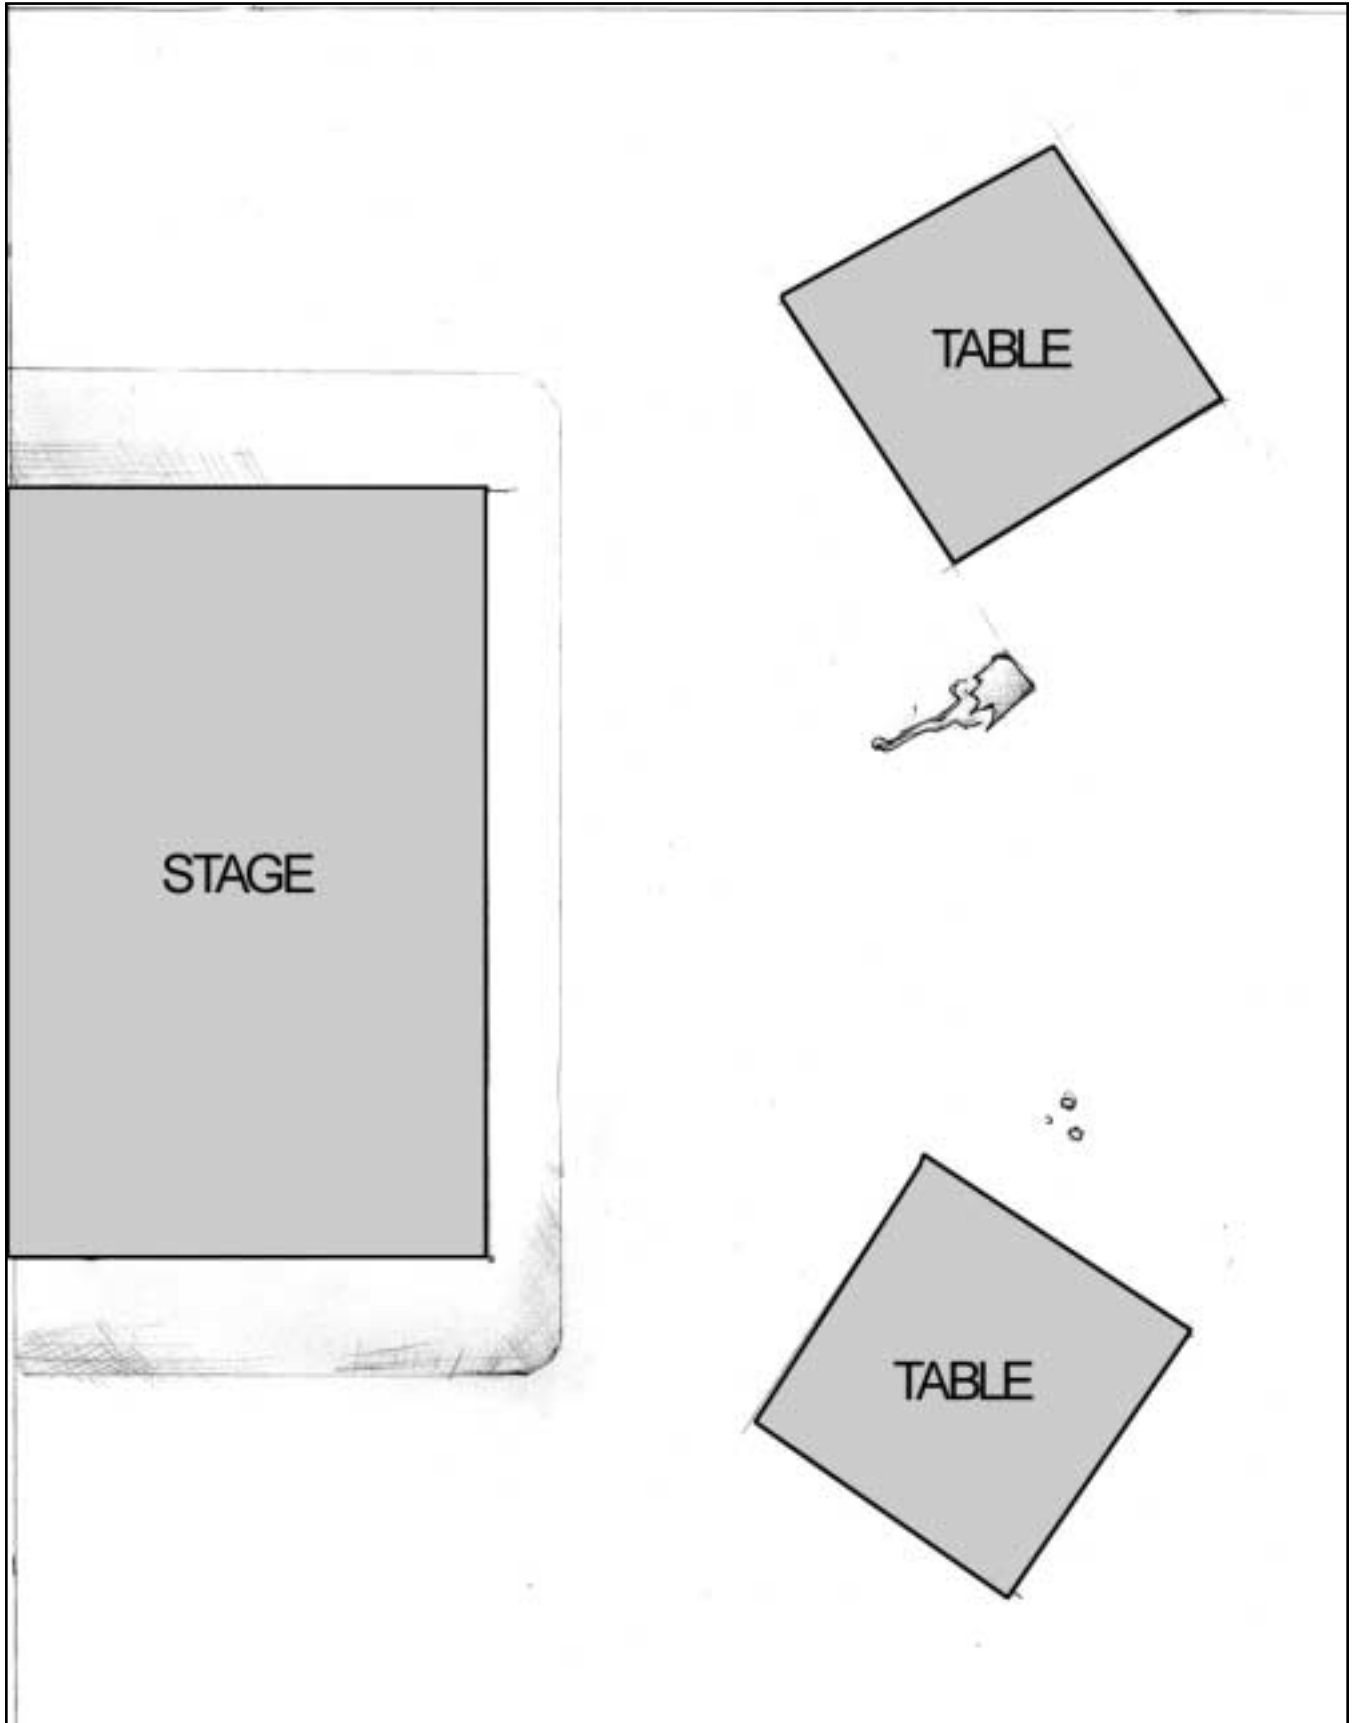

CHARACTERS:

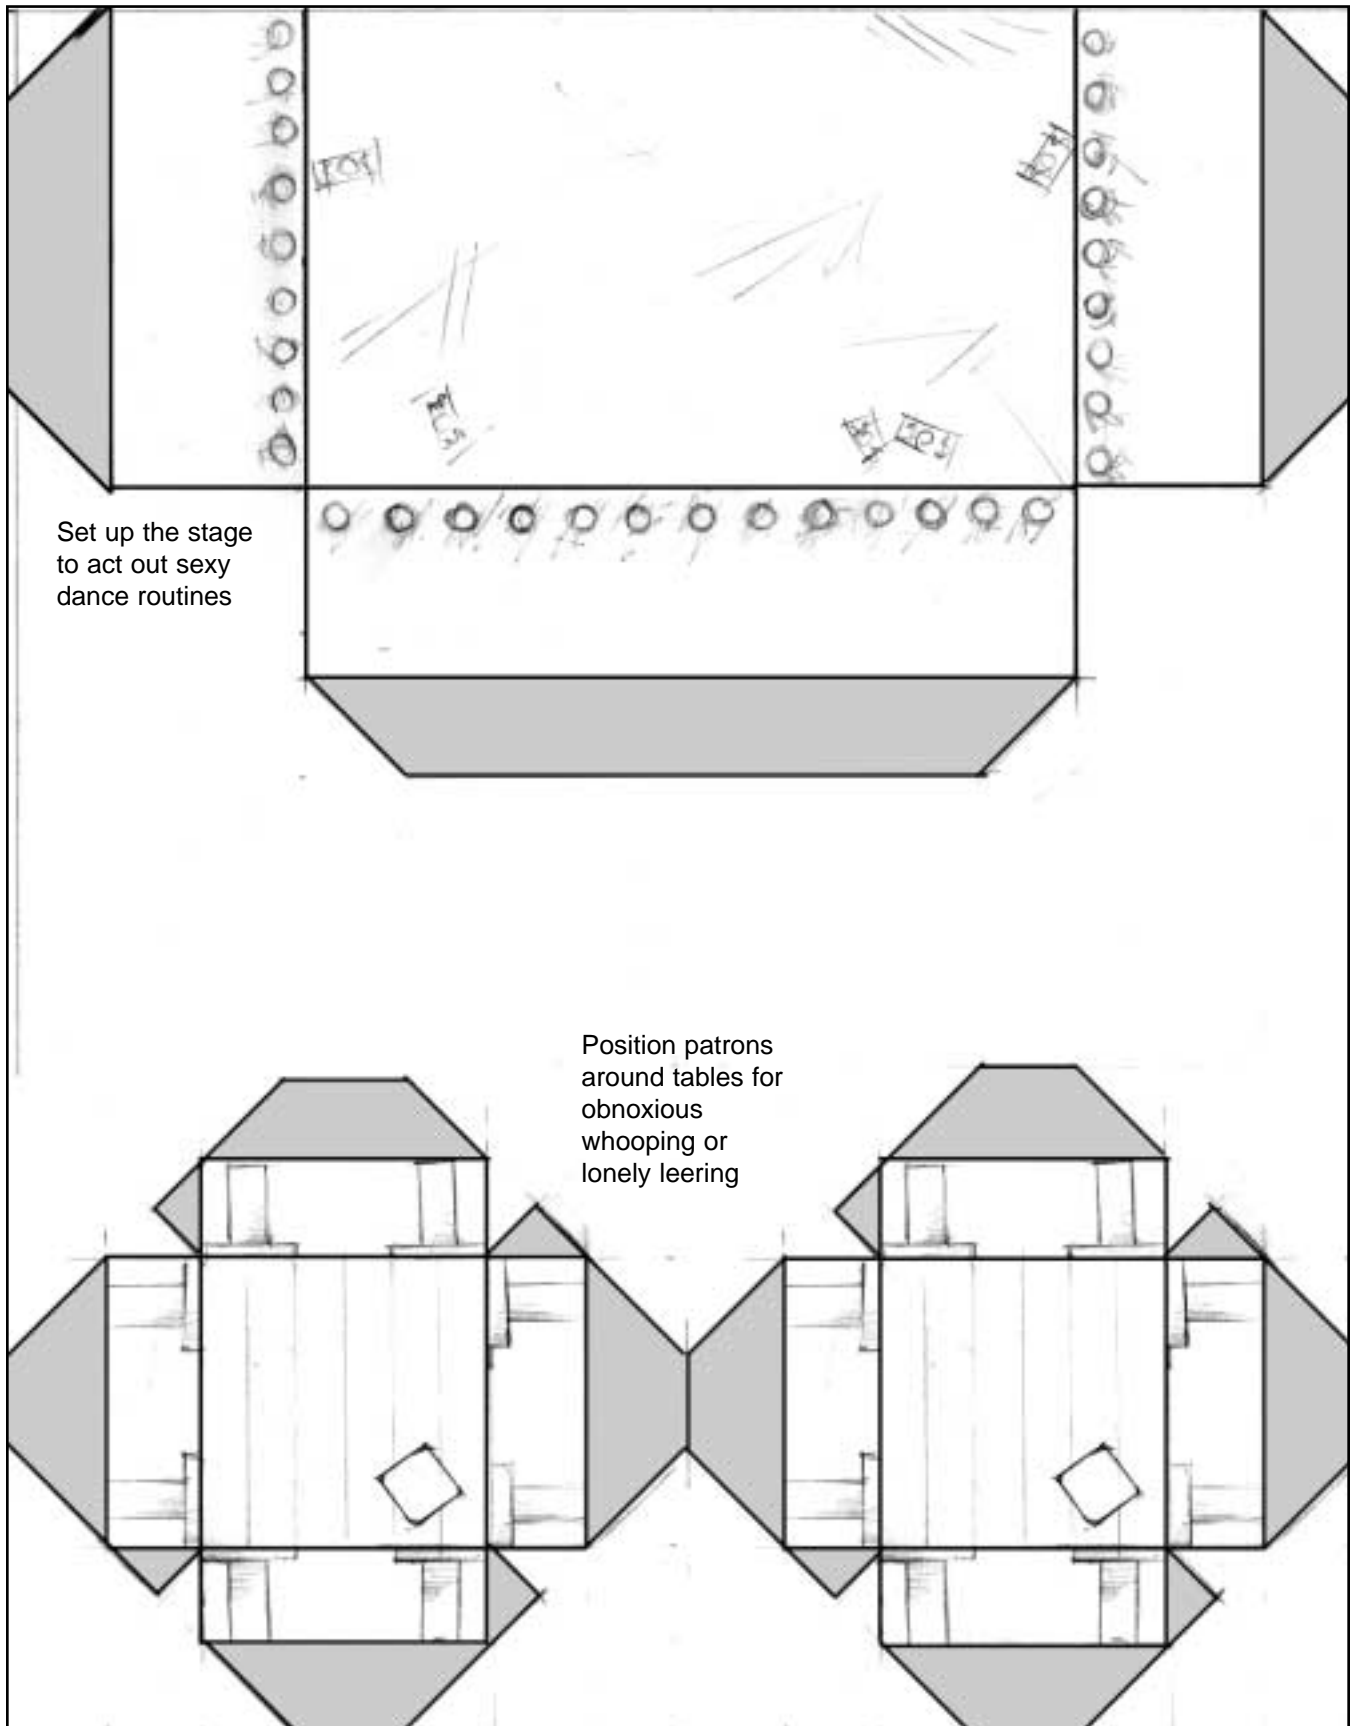

Cut around the outline of each character and each of their stands separately. Cut along the dark black lines in the stand and the base of each character. Be careful not to cut all the way across. Match up the two slits, and fit the pieces together, forming a stand. Place the characters in the scene.

PUZZLES:

Each game on the puzzle page has its own instructions, which can also be found on the puzzle page.
